

Visiting Team Injury Report

Player's Name: Ericsson, Jonathan
Date: 2018-03-09
Location: Columbus
Finalized: Yes

Related Events/PPME/Exit Examinations:
2018-03-09 EST R Thigh laceration

History:

Right medial thigh laceration from a skate

Physical Examination:

7 cm x 2 cm x 1 cm deep wound. Minimal bleeding, no contamination

Diagnosis:

Right thigh laceration

Recommendations:

I&D, closure of wound. The wound was linear and clean, minimal bleeding and no injury to the saphenous vein. The wound was sterilized and 10 ml of 1% lidocaine was used for anesthesia. I copiously irrigated the wound and closed it in layers with 3-0 vicryl and 4-0 nylon for the skin. A sterile bandage was placed.
